Set up Watchlists to keep track of your investments

With Watchlists, you can monitor securities at a glance through the RBC Wealth Management Mobile app.

You can create up to 50 personal Watchlists, each containing up to 100 securities you wish to monitor, including Watchlists that mirror your account holdings, for example. You can also keep track of dividend-related information for various stocks, mutual funds, and ETFs in your Watchlists. (Please note, all Watchlist quotes are delayed by 15 minutes.)

It's easy to securely add, modify and delete Watchlists from your smartphone. Here's how you can do it:

 Log in to the RBC Mobile app and then tap on the menu tab/button, located at the bottom of your smartphone screen. If you have not downloaded the RBC Mobile app, do so, through the App Store (iPhone) or the Google Play Store (Android). Then, tap on the "Markets & Research" tab (1) and select "Watchlists" (2).

2. Tap on "Create List" to set up a new list.

Sorting a Watchlist

By default, each Watchlist is sorted by the chronological order that each symbol was added. However, you can sort your list according to whatever column you wish.

Here's how you can do it:

Touch the upward blue triangle icon to sort the list under a given column in ascending order, or touch the downward blue triangle sorting icon to sort list in descending order.
