

“e” for a tree

Through our ongoing commitment to creating a low carbon economy, RBC Dominion Securities has embarked on a campaign to plant 300 trees locally in Lambton-Kent.

For every household that switches from paper to e-statements, a tree will be planted locally.

Campaign duration:
January 1 - August 1, 2020, with tree planting to follow.

Benefits to switching include...

Easy access to your statements:

Through DS Online, you have access to your official RBC Dominion Securities account statements in electronic format, including a seven-year archive and the ability to highlight and make notes on any statement.

Enhanced security & privacy:

The DS Online 100% Security Guarantee allows you to access your account information through the latest 128-bit encryption technology and be confident that all your information is secure and private.

Go paperless with e-statements to reduce your paperwork, enhance your security and reduce our environmental impact.
