Tuition

Undergraduate tuition programs cost an average \$6,000 per year, with dentistry costing the most (\$18,187) and education costing the least (\$4,510).

Books and course materials

Plan to spend \$800 to \$1,000 per year on books and other course materials.

Technology

Expect to spend up to \$1,600 for computers, computer accessories, tablets and the like.

Student residence

Two terms in a student residence will cost about \$4,500 to \$6,000 or more, depending on your meal plan and other fees.

Transportation

Add about \$100 monthly for public transportation if you don't live within walking distance of your school, or factor in the cost of owning a car.

Translating education into salary

Total cumulative earnings for men and women with high school diploma, college certificate or bachelor's degree.

Students who have completed post-secondary education earn stronger salaries over their working lives – approximately 28% higher for college graduates and 79% higher for university graduates.

Speak to us to learn more about planning ahead for these and other higher learning costs.

High school
\$749,975

College certificate
\$963,075

Bachelor's degree
\$1,340,105
