Global Infrastructure

With the world's infrastructure in line for a 21st century upgrade, we look at how this theme can enhance the infrastructure of investment portfolios.

Why infrastructure?

- Provides income, growth, and diversification
- By 2030, there is an estimated \$49T of infrastructure investment needed to keep up with global demand
- Downside protection and defensive properties

Snacks and beverages (including ale from Trench Brewing) will be provided.

Seating is limited for this exclusive event.
Please respond at your earliest convenience.
