The team and I thought it would be a great idea to bring everyone up to date with what is new in the lives of the Tingley Group.

Firstly, I will start with my family. My eldest daughter, Erica, lives in Halifax, has two children – Summer, nine, and Stella, six – and is currently working on her undergrad at Dalhousie University. Her life is extremely busy and I am not sure how she does it. My eldest son, Garrett, is in his third year of the Anesthesia Residency Program at Memorial University in St. John's, NL. Again, it is hard to fathom how many hours per week he dedicates to his program. Becca now lives in San Francisco where she works for a tech start up called Zip Line. She recently spent a month in Africa checking out Zip Line's operations in Rwanda, Uganda, and Kenya. Samuel is currently working as a refrigeration technician in Moncton, NB. He is currently doing his second block, working toward his Red Seal. Nice to have one of our children close to home as we get to see him all the time. I am looking forward to Christmas, as it will be the first time we have all been together since before COVID.

Family, of course, is a big part of our lives, so it seems like we see our children on a regular basis, whether at our home or visiting them where they live. Denise heads to Halifax on a regular basis to provide support to Erica with her busy schedule. We travelled to Newfoundland a couple of times in 2022 and San Francisco in September.

As everyone knows from our newsletters, our yard continues to expand and is almost a part time job.

I must say, I have really enjoyed the wood lot in Albert Mines over the last couple of years, making trails, hiking, hunting, and getting firewood. Although it took 20 hours to clean up fallen trees after Fiona, which was initially a little disheartening, but really, never a bad day when you get to spend time ripping on the chain saw.

From our family to yours, we hope you have a great holiday season.

*Howard*

With a seven-year-old and a 10-year-old at home, my wife and I are expecting a very busy Christmas. We are hoping to get one more year of our youngest still believing in Santa Claus, but I suspect that information could slip out from his older sister any time! I hope there is snow so that we can go downhill skiing at Poley Mountain or cross-country skiing at Kouchibouguac and Centennial Park. This fall, we have been very active every day of the week with skating, swim lessons, basketball, soccer, ballet, and musical theatre, so I'm looking forward to a lighter schedule over the holidays. I hope everyone enjoys the holidays and has a Happy New Year!

**Jeff**

I have had a great and busy year. My son Caleb's hockey team, the Dieppe Flyers, won the U15 AAA Atlantic Championship in May, which was thrilling to see. This year, he is playing with the Moncton Thunderbirds in the Nova Scotia U16 AAA division. This will be an opportunity to discover some areas of Nova Scotia that we have never visited before. My son Nico is

enjoying his new school and being in Grade 6. He kept very busy this summer playing with his friends and spending time in the pool. The boys and I went on a road trip to Montreal in July and the boys discovered roller coasters for the first time at La Ronde. It was a day we won't soon forget.

My partner, Amanda, and I were able to get a nice break this year when we headed to Cuba in June. Little did we know that a few months later, Amanda, who lives in Prince Edward Island, would be impacted by Hurricane Fiona. My father, Jacques, and I spent some time there repairing damage and cutting down trees. The impact of the storm was incredible but thankfully everyone was safe.

As the year comes to a close, we are looking forward to continuing to spend time with loved ones and making plans to head home to northern New Brunswick over the winter for campfires and snowshoeing with my parents. As always, it is a great pleasure to work with all of my wonderful clients, and I wish you a warm holiday season and a happy and prosperous 2023.

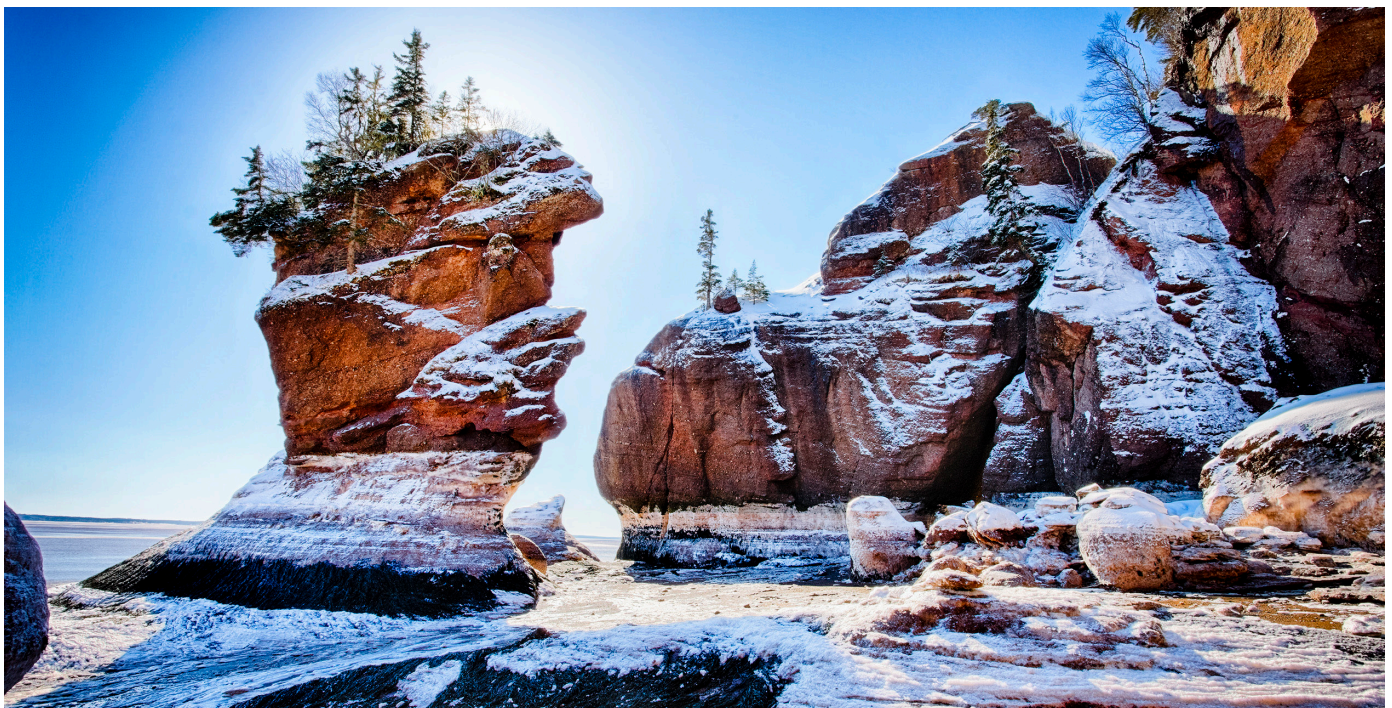

**Phil**

With the kids finding their own way, it seems that my husband and I are having more time for new hobbies and adventures. This spring, I purchased my first set of golf clubs. I registered for golf lessons, hit the driving range and soon realized this sport will take some time, patience and practice.

In the fall, we decided to make our way to the East Coast of Newfoundland. We enjoyed the beautiful landscape of this province. Our travels included a few days in St. John's, where we visited Signal Hill and Cape Spear. Then, we moved along to a coastal community called Brigus. This was by far my favourite area to visit. A small community with colourful homes, white picket fences, and a local café offering the best of Newfoundland flavours. I will definitely return and next time visit the West Coast of Newfoundland.

Wishing everyone a Happy Holiday and new adventures for 2023.

**Angela**

2022 was a great year for my partner, Mattia, and I. We got a lot done around the house and also did some renovations. We spent a lot of the summer camping, and did some trips up to Mount Carleton and some other New Brunswick hiking spots. We also spent a lot of time with my family at Washademoak Lake. Mattia is from Nova Scotia, so it was great to get back and see her family as well.

This year was a productive year for studies. I completed the Portfolio Management Techniques course and received my Chartered Investment Manager (CIM) designation. In 2023, I plan on starting the Certified Financial Planner designation and my insurance license.

I hope you all have a great Holiday season and a happy 2023!

**Ryan Reid**

My year started off with great productivity and a lot of fun with a project of renovating and finishing the basement. Being hands on during this, I've learned a lot of new skills and that remodeling your space requires a great deal of planning, patience, and attention to detail.

Exploring Atlantic Canada has brought me to new places and adventures in some of the provincial parks, trails and beaches. My partner, Shawn, and I have enjoyed spending time at two of our favorite places in the summer – Prince Edward Island and also enjoying the beaches in Cap-Pelé, NB.

My three nieces are growing up fast, Hailey is now 15, Madyson is 11, and Emma is eight, and all three are always up for an adventure with their aunt. More recently, into the fall, I've ventured outside of the Maritimes again with a trip to Quebec City, and then a family vacation to Florida.

Many of you know, Shawn and I have an orange tabby cat, Gizmo. This 17-year-old reminds us on a daily basis that he is not like a typical cat

who craves independence. He wants to be close by and receives a lot of love and affection from us. One of our goals in 2023 is to find a fur-ever friend to add to our family.

I hope you all are looking forward to a happy and peaceful holiday season to unwind with your loved ones as much as we are. Wishing you all the best in the year ahead!

**Jessica**

When Dennis, the kids and I aren't at the trailer, you can find us sneaking in a round of golf, bringing the kids to basketball and swim classes or getting in some visits with friends and family, both near and far. The kids, Evan (eight years old) and Nolan (six years old), and I took up golf lessons this summer. I've got to say, they've got a nice little swing! As for me, well, I'm happy Dennis is a patient golfer. I'm hoping their love for the game continues so we can get out as a family for a round here and there as they get older. This summer, we travelled to Dennis's hometown, Corner Brook, NL, twice. It was nice to spend some time with family out boating or just simply sitting around the kitchen table with a cup of tea.

Aside from that, I decided I'd like to pursue more studies. I've completed the Wealth Management Essentials (WME) course, which is the first step toward the Chartered Investment

Manager (CIM) designation.

Wishing you all health and happiness this holiday season and into 2023!

**Melanie**

2022 was a year filled with reconnecting with friends and family and celebrating milestones. This year marked my 10 year anniversary with RBC and one year with the Tingley Group. My husband, James, and I

celebrated our one-year wedding anniversary this summer, spending our week exploring the beautiful landscapes in PEI. We stayed in a camping geo-dome in Mount Tyron immersed in nature.

As the winter season comes near, James and I are back in the rink as we're both avid hockey fans and long-time season ticket holders with the Moncton Wildcats. Once the snowfall comes, we'll be on the trails skiing and snowshoeing with our 13-year-old German Shepherd Mix, Baylee, and four-year-old French Bulldog, Winston.

It's been a pleasure getting to meet most of you this past year, and I'm looking forward to the opportunity to meeting many more in the year ahead. Happy Holidays and cheers to a New Year!

**Linh**

With both my wife, Jennifer, and I being “from away,” we spent most of our free time this past year reconnecting with friends and family in Prince Edward Island and Nova Scotia. Our two sons are now beginning their careers in the trades they have chosen. My wife is a huge home-reno television fan, and so we now find ourselves in the midst of a major kitchen and bathroom makeover. I have even come to learn what Shaker style cabinet doors are! With any luck we will have our kitchen and bathroom back in order in time for the holidays.

I would like to wish you all a wonderful holiday and a Happy and Healthy 2023.

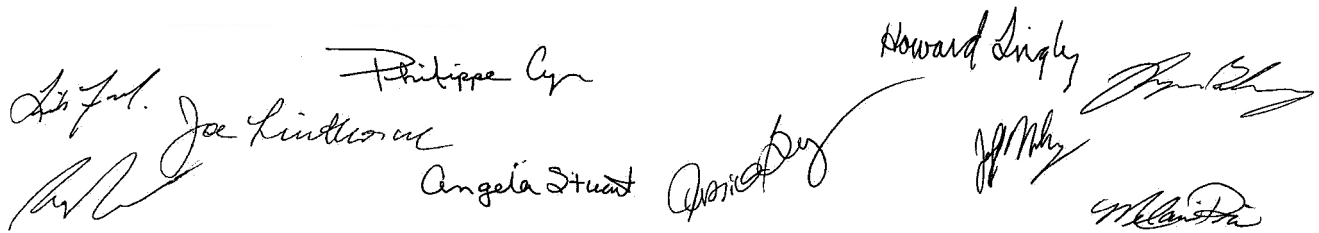

**Joe**

My partner, Holly, and I have had an exciting and eventful year. On the personal front, Holly and I bought our first home in November. Shortly after, we also introduced a black Labrador puppy to our family that we named Kevin. We wanted a big dog, but he has grown well beyond our expectations and is a whopping 88 pounds at only 10 months old!

Professionally, I’ve also had a big year. I joined the Tingley Group in July and swiftly wrote and passed four different exams required for my professional license to become a registered representative.

Since joining the team, I’ve had the pleasure of meeting a few of you and I’m hoping to be able to meet many more in the New Year. Happy Holidays from Holly, Kevin and I.
