Protecting your privacy and security with DS Online

We understand how important information security and privacy is to you. That's why RBC Dominion Securities Online (DS Online) uses the highest possible online security standards to protect the information you send or receive from our secure site.

Protecting your information and ensuring the security of your transactions are among our highest priorities.

We work diligently to maintain the highest possible standards for our online security. We use advanced technology and follow rigorous security practices to prevent your information from unauthorized access, disclosure, alteration or misuse, including:

- Robust and multi-layered security of servers and applications.
- Multiple layers of internal and external firewalls that protect our online environment.
- Industry-standard encryption to protect the information you send or receive from our secure site. This step encodes the information that flows between your computer and our computer systems, making it difficult for unauthorized individuals to intercept, read or alter your online communications and transactions.

- Personal verification questions add an extra layer of security when signing in. Since you set them up yourself, they are unique and are not accessible to anyone else, including employees of RBC Dominion Securities.
- Automatic session terminations when extended inactivity is detected. This helps to protect your accounts if you are called away from your computer without an opportunity to log out.

Protecting yourself

Protecting your information and ensuring the security of your transactions are among our highest priorities. But you can maximize your own online privacy and security by being informed, which is often the best defense against fraud. Here are a few things you can do:

If you have any questions about using DS Online, please speak with your Investment Advisor or call the DS Online Helpdesk at 1-888-820-8006, Monday to Friday 7:00 a.m. to 7:00 p.m.

- Be aware of schemes that ask for personal or financial information. Do not respond to unsolicited requests for confidential information.
- Maintain a suite of security software products. This should include a reputable personal firewall, anti-virus, anti-spam and anti-spyware, all necessary to provide online protection for your computer and your information.
- Sign out and close your Internet browser at the end of each session.
- Keep your passwords for DS Online, RBC Online Banking and other RBC online services strictly confidential, as well as personal verification questions and answers.
- Contact us immediately if you know or suspect that your password has become known to someone else, or if there has been suspicious activity in your account that you did not authorize. Call the DS Online Helpdesk at 1-888-820-8006, Monday to Friday 7:00 a.m. to 7:00 p.m.

Secure and confidential

We understand how important information security and privacy are to you. That's why DS Online uses the highest possible online security standards to protect the information you send or receive from our secure site.
